PRESIDENT MESSAGE

To all,

Following last General meeting that was held January 16th 2011, the board of directors has been renewed. Mr. Jean-Charles Marcoux is now the PQRA’s new President. Mr. Raymond Turcotte was elected has Vice-president. And finally, Mr. Claude D’Astous is now the new treasurer and secretary. We are proud and happy to serve the Association for the upcoming year.

This year, the Competition class will start its activities on April 23rd. The military class will also be on schedule this year. In fact, a lot of shooters are interested in historical rifles that were designed and in service during WWI, WWII and the Korean War (1914-1953) and would like to train as well as shooting competitively.

In an optic of recruiting new members and to promote our sport, the PQRA will offer this year a Competition Passport. This Passport will provide the holder’s possibility to compete at all sanctioned PQRA’s match. However, this Passport does not permit the holder to use the PQRA’s facilities on any other circumstances. The previous comments heard are positive and hopefully, will bring new member to our Association and our sport.

At the time of writing these lines the PQRA’s Web site is under construction. It will have a new design and will be use to provide news to our members about the upcoming events. The new media, including a Twitter account, will take more places in the next years. The PQRA’s journal will be available in PDF through the Web site.

This year again the shooting schedule might be bump for military uses. The information will be relying on the Web site www.pqra.org and an emailing chain will follow. If you don’t have an Internet access, these people could keep you posted:

Mr. Jean-Charles Marcoux (418) 802-8090
Mr. Raymond Turcotte (819) 381-1199
Mr. Claude D’Astous (450) 663-8483
Mr. Pierre Bastien (418) 580-4986

To facilitate the paperwork we would appreciate the renewing forms and payment early this season.

To all, have a nice reading of your newsletter and overall a great shooting season.

Jean-Charles Marcoux

Mr. Jacques Denis
ARRIVAL ON THE RANGE

Any member can only enter the range, take the service road to reach the appropriate mound for the 2 reasons: unload or pickup their shooting equipment. **Under no circumstances may he cross the firing line without the authorization of the range officer.**

Vehicles must be parked in the appropriate areas. Only one vehicle is allowed near the firing point in case of emergency. Visitors must park in the designated areas immediately upon arrival.

Shooters and shooting gear must be located behind the mound such as the shooters and the range official can watch the equipment.

Shooters unpacking their rifle must:

- Immediately open the bolt and check that the rifle’s chamber and magazine when applicable are unloaded. Remove the magazine if it’s possible.
- Check the barrel to ensure that it is unobstructed.
- Then, insert a bolt flag in the breech. This indicates to bystanders that the rifle is safe to handle. Bolt flags are available on the mound for 2$ each.
- Finally, position the muzzle of the rifle towards the butt.

ON THE MOUND

There is a flag located on the mound. It can be either red or green.

A green flag indicates that the line is safe and that there is **no firearm allowed on the mound.** Upon the range officer’s command, shooters may move their equipment to the mound **except for the rifles** at the designated firing point by the range officer.

The red flag indicates that preparation to commence fire is under way. The range officer will authorize the shooters to move their rifle to the mound and prepare themselves **without loading their rifles.** At the range officer’s command, shooters may load their rifle **in a single shot manner and fire at their designated target.**
While shooting, if you hear the words: ‘‘CEASE FIRE’’ or their French counterpart ‘‘CESSEZ LE FEU’’ or ‘‘HALTE AU FEU’’ you must:

- Cease fire immediately
- Unload the firearm (breech and magazines when applicable)
- Insert a bolt flag in the breech
- Wait for instructions from the range officer

If you witness a situation that would compromise safety, it is your duty to alert by repeatedly shouting the commands above mentioned.

During a shooting session, it is possible to see wild animals getting out of the wood or in front of the butts.

**It is strictly forbidden to shoot at them.** Any non-complying member would be automatically dismissed from the Association.

If during shooting you have a misfire or you brass or bullet stay catch in the chamber, **DON’T TRY ANYTHING BEFORE ASKING HELP FROM RANGE OFFICER**

**WHEN SHOOTING IS FINISHED**

The shooter who has completed his shooting string must:

- Check if the rifle is unloaded (breech and magazine when applicable.
- Insert a bolt flag in the breech.
- Ask the range officer to inspect the rifle before retiring from the mound.

In the advent that a shooter wishes to change a rifle, he must repeat the safety procedure from item ‘‘Arrival on the range’’ to ‘‘Shooters unpacking their rifle must’’.

**AT ALL TIMES**

All shooting is performed on the firing points **including zeroing rifles and using a chronograph.**

Some equipment is available on request to perform these tests, **at the 100 yards line and nowhere else.**

**RANGE BUILDINGS**

**It is forbidden at all times to bring firearms or ammunition in the premises. Department of National Defense regulations**
CALIBERS AND AMMUNITION AUTHORIZED ON THE BATOCHE RANGE

Authorized calibers and ammunition must be equal or ballistically inferior to the following reference: 300 Winchester Magnum with a 180 gr. commercial bullet.

To avoid confusion, the technical committee, based primarily on bullet diameter, has approved a set of criteria. Hence the following calibers are authorized:

- All commercial calibers from .170” to .284” (7mm) not exceeding the ballistic reference above. The technical committee requires validation of wildcat cartridges derived from these calibers.

- All commercial calibers from .308” to .323” (8mm) not exceeding the ballistic reference above. The technical committee requires validation of wildcat cartridges derived from these calibers.

- Commercial .338” caliber is forbidden. The technical committee requires validation of wildcat cartridges derived from this caliber.

- All other calibers larger than .338” must be submitted to the technical committee for approval, whether from commercial, “wild cat” or military origin.

- The following calibers are forbidden:
  - Ultra magnum from .284” (7mm) to .338” inclusive
  - Weatherby .284” (7mm) to .375” inclusive

- Black powder and Muzzleloader calibers are permitted.

- The technical committee may require a chronograph test to be performed on calibers or ammunition for which there is a reasonable doubt of exceeding the ballistic reference (mostly applies to reloaders).

- All “non conventional” ammunition is forbidden.

AUTHORIZED FIREARMS ON BATOCHE RANGE

Authorized firearms on the range fall under the class “non-restricted” as defined in the Canadian Firearms Act. Any other class is forbidden.
## TARGET AND SCORING RINGS DIMENSIONS (inches)

Note: FF and FO classes use new V-bull sized ½ MOA at each distance.

Province of Québec Rifle Association

SPORT CLASS

The goal of this class is to develop the shooters skills at different distances ranging from 100 to 300 yards using the Prone, the Standing and the Kneeling positions. The targets are provided by the PQRA. However, if the shooter chooses to use it’s own targets it is mandatory that the targets must be install on targets carriers. The targets allowed are “poster” type and they must not represent a human shape. Animal targets posters are accepted.

The rifles and ammunitions accepted as well as security and safety rules have been writing previously in the newsletter. It’s imperative to read and understand those rules. If you have any concern you can ask any member of the Executive Committee

The sport class will be open a few times during the competition season (April to September). On mid September the sport class will remain open until next spring. The schedule will be available on the Web site www.pqra.org

Mr Pierre Bastien will be the officer this year.

No guests even with a member are allowed to shoot.
HISTORICAL MILITARY SERVICE RIFLE SHOOTING
Shooting Match with Historical Military Service Rifle (vintage 1914-1953)

Technical Specifications for allowed Rifles and Ammunition.

Three classes will be recognized for this new discipline of shooting:
Service Rifle (A), Service Rifle (B) and Modern Rifles (M).
The differences are applicable to original configuration, cartridge and sights.

1.1 Service Rifle (A):
To be eligible, the rifle must be in its configuration of origin and have been issued to Service during the period covering from 1914 to 1953 (1st and 2nd World War, as well as the War of Korea).

Applicable to Canadian Forces or any other country engaged in these conflicts. Rifle must be in original configuration (i.e. cartridge, stock, trigger system, barrel and sights must be of original type).

No other attachment allowed except for military sling. Glove or shooting mitten is allowed.
No front support system other than sandbag or commercial support similar to the “Hornady Delta Rest”.

The supporting hand, being used to hold the rifle, will have to rest between rifle stock and the support aid. No rear support of any kind. The rifle, at rear, must rests at shoulder only with help of shooting hand.

Light fabric or cotton shooting vest is allowed. No formal shooting coat, leather made or similarly used in TR Competition shooting is allowed.

1.2 Service Rifle (B)
To be eligible, the rifle must meet all criteria as per point 1.1 except for the following rules:
-Sighting system can be rear micrometer with front globe or post.

OR

-Sighting system can be telescopic with original scope, modern repro or modern scope respectful of original spirit.

1.3 Modern Service Rifle (M)
To be eligible, the rifle must meet all criteria as per point 1.1 except for the following rules:

The rifle must be in 7.62 NATO and either be a copy or a latter variant of accepted models in SR (A) and (B).
In addition, civil copies (non restricted) of the USGI M14 (M1A made by Springfield Armory or M305 made by Norinco) will be accepted given their market popularity.

Any sight or telescope in one single category only.

1.4 **Authorized Ammunition.**
The ammunition must be factory loaded or reloaded not to exceed specs of original ammo to be allowed. Match bullets are strongly recommended.

Military surplus ammunition will be examined to determine if it is safe for shooter and other people present on the range.

1.5 **Rifle Loading and Handling. (VERY IMPORTANT!!)**
Military weapons used for these types of competitions are designed to be loaded and used with magazine containing multiple rounds. Rules from the Canadian Firearms Center are applicable:

Magazine or clips of five (5) rounds maximum capacity for semi-automatic centerfire rifles.
N.B.: the only legal exception remains the M1 Garand with enbloc clips of 8 rounds capacity -- Maximum charger capacity of ten (10) rounds for bolt action centerfire rifles.

Magazine or clip loading with more than one cartridge at once will be acceptable so much and as long as the fundamental safety requirements will be applied.

The rule of firearm pointing and firearm discharge in safe direction only is unconditional and will be scrupulously sanctioned. One and only one warning will be given during any infringement noted by a participant and/or a range officer.

A second fault will involve an automatic removal from firing point commanded by the RO.

1.6 **Rules and Practices connected to Range Shooting.**

The complete set of rules will be applied on and off firing point for anybody on the ranges.
Only above stated rules, specific to this type of Competition, can and will differ from the rules already used for the al other types of shooting and competitions.

1.7 **Targets:**

Class SR (A) will use targets and distances similar to Class TR.
Classes SR (B) and SR (M) will use targets and distances similar to Class F.

In order to shoot on military ranges and to participate in the activities governed by the PQRA, it is mandatory to be a conjoint member of the Dominion of Canada Rifle Association (DCRA).

Membership privileges include:

- A vote at the annual general meeting
- Participation to all competitions (match registration fees not included)
- Provincial classification (competition class)
- Can shoot at sport class practices
- PQRA newsletter
- 2 000 000 $ liability insurance coverage either:
  - Associate = Only in Québec
  - Regular = Anywhere in Canada
    - 2 Canadian Marksman issues

Annual membership validity is from April 1 to March 31.

THE MEMBERSHIP CARD MUST BE WORN AT ANY TIME TO ACCED THE RANGE AND THE FACILITIES

ANYONE WHO DOES NOT RESPECT THAT RULE WON’T BE ABLE TO PROCEED ON THE RANGE OR THE FACILITIES

DOAD 3002-5 NOTICE

Extract from the DOAD-3002-5

USE OF FIREARMS, AMMUNITIONS AND EXPLOSIVES

Prohibited Use of Firearms

Firing or attempting to fire locally manufactured firearms, firearms manufactured for display or for trophy purposes, or any other such firearm is prohibited, except as follows:

- Authorized experiments or modifications carried out by experimental or research establishments or by any organization directed to do so by the appropriate firearm's Life Cycle Materiel Manager;
- Properly controlled DND-sponsored or recognized rifle associations utilizing DND facilities provided that the association certifies, in writing, that:
  - The firearm has been inspected and deemed serviceable by an accredited gunsmith within the preceding twelve months;
  - That the danger areas of the firearms fall within the danger area boundaries of the DND facility; and
  - That the Crown is indemnified from all liabilities arising from the use of the facility by the association.

I guarantee that firearms and ammunitions that will be use during 2011-2012 shooting season meet the standards mentioned above regarding their conditions and ballistic performance (equal or less than a 300 Win Mag. with a 180gr bullet from mass production).

I also exempt the Crown from all responsibilities resulting from my use of the shooting ranges on the CFB Valcartier.
